

SHAFFAQ HAI

Toronto, ON M5G 2J1 • 647-533-2398 • hai.shaffaq@gmail.com

Highlight of Qualifications

Technical Skills

- Object Oriented Languages (C#, Java)
- REST API
- Relational Database Languages (MySQL, Oracle, Postgres, MongoDB)
- HTML / CSS
- JavaScript (React, Angular, Node)
- Data Structures
- Python

Relevant Educational Experience:

Computer Programming and Analysis

Sept. 2023 – Apr. 2026

George Brown College, Toronto

- Full-Stack Development

Projects

Capstone

- Streamlined manual scheduling workflows to significantly reduce technician workload, successfully delivering easily readable output and PDF alignment documents.
- Designed and implemented a user-friendly web portal, allowing CBC technicians to easily view, edit, save, and manipulate automatically generated schedule alignments.
- Collaborated with a project engineer and CBC stakeholders through the full software development lifecycle, executing tasks from gathering requirements and wireframing to testing, debugging, and MVP deployment.
- Developed a load-balancing algorithm and time-conflict flagging system, preventing overlapping timeslots and optimizing the overall broadcast schedule.

Work Experience:

Postal Service Clerk

Aug. 2020 – Mar. 2025

Penguin Pickup

- Utilized various package handling processes for efficient storage keeping and reduced misplacement incidents.
- Improved workplace organization by implementing effective storage solutions for mailroom materials and equipment.
- Maintained accurate records of all incoming and outgoing mail, ensuring proper tracking and routing using proprietary software.
- Enhanced customer satisfaction from 2.5 to 4 on google reviews by providing efficient and courteous service at the postal counter.
